PRESIDENT WILBUR YIELDS HIS PLACE

Is Succeeded in Lehigh Valley Executive-ship by Alfred Walter.

HIS OTHER INTERESTS TOO LARGE

The New President Has for Nearly Three Years Been Manager of the Cox Estate and Is a Railway Man of Varied and Brilliant Experience. Change Also in Directors.

Philadelphia, July 13.—The rumors which have been current for some days in railroad and financial circles concerning a change in the officers and directors of the Lehigh Valley railroad company culminated today in the resignations of E. P. Wilbur as president, and William L. Cunyngnam, Charles O. Skeer and George H. Myers, as directors, being accepted. The resignations of the three directors were presented at a recent monthly meeting but were not acted upon until today, while President Wilbur's was only presented at today's meeting. The vacancies were filled by the election of Alfred Walter, as president and Edward T. Stotesbury, of this city, and C. H. Coster, as directors. Mr. Wilbur was also elected a member of the board to fill one of the three vacancies. Ever since the deal was consummated with J. P. Morgan & Co., and Drexel & Co., in March last, whereby the banking firms secured a large voice in the management of the road, a number of changes were looked for in the board and today President Wilbur announced that it had long been his desire on account of other large interests to be relieved of active charge of Lehigh Valley affairs. He said further that the new interests in the property had expressed a strong desire that he remain in the board, and he then expressed his willingness to do so.

THE NEW PRESIDENT.

In accepting Mr. Wilbur's resignation the board adopted a strong resolution of compliment to his past management and of personal esteem and appreciation. Embodied in the same resolution was the acceptance of the resignations of Directors Cunyngnam, Skeer and Myers. The new president and directors were then elected.

Alfred Walter, the new president, was the former superintendent of the Baltimore and Ohio, and was born in Brooklyn, in 1851. His railroad experience dates from 1872, during which he rose from rod man on the Allegheny Valley railroad to general manager of the New York, Lake Erie and Western railroad, from which he resigned in 1894. He is now the president of the Delaware, Susquehanna and Schuylkill railroad, a line of twenty-eight miles running from Deringer to Drifton, Pa. He is operated for the purpose of carrying the coal production of the Cox Brothers' estate, of which large coal tracts Mr. Walter has been manager since December, 1894.

Messrs. Stotesbury and Coster are both members of the banking houses of Drexel & Co., of this city, and J. P. Morgan & Co., of New York.

THIEF SWAM THE RIVER.

How an Agile West Pittston Murderer Evaded Justice.

Pittston, July 13.—For the past few months clothes-line thieves have been operating on the wholesale in West Pittston, during which time many clothes-lines have been rifled of articles of considerable value. Burgess Cutler determined to put a stop to the business. He originated a plan to trap the thieves. Several residents in the upper end of the borough consented to allow their clothes to remain on the lines over night. It being understood that special policemen had been appointed to keep watch over the same, with orders, should any attempt be made to disturb the clothes, immediately to place the accused under arrest.

Last night the thief operated at the residence of Charles Hughes on York avenue. Becoming aware that he was being shadowed he made a dash for liberty. The officers followed in close pursuit, and made an earnest effort to secure their man. The chase was an exciting one and only ended when the river bank was reached. Here the thief made a desperate leap down the bank and into the water, and swam to the other shore.

STORIES TOLD OF FAMOUS MEN

An amusing anecdote is told of the celebrated Chief Justice John Marshall, by his descendants, in illustration of the curiously practical sense of that wonderful profane legal luminary. Returning one afternoon from his farm near Richmond, Va., to his home in that city, he was caught on a small sapling growing by the roadside. After striving unsuccessfully for some moments to extricate the wheel he heard some folks saying in the woods, and saying to what he had done in the matter, she replied: "I prayed that the trap might not catch the birds." "Anything else?" "Yes," she said; "I prayed that God would prevent the birds getting into the trap, and, as if to illustrate the doctrine of faith and works, I went and kicked the traps all to pieces."
